Azerbaijan becomes significant transport hub for Europe (Exclusive)

15 March 2018 07:00 (UTC+04:00)

Baku, Azerbaijan, March 15

By Ali Mustafayev – Trend:

Azerbaijan is a very important part of the puzzle, connecting Europe and Asia, being a key part of the trade route to Central Asia and China, Kestutis Jankauskas, head of the EU delegation to Azerbaijan, told Trend.

"Europe has been consistently supporting all the ways, contributing to the connectivity between the countries in several directions, including sea, railways, air connection, as well as financial connectivity and IT connectivity. We should develop all these terms of cooperation with Azerbaijan and other countries of the Silk Road in order to work as one structure," said Jankauskas.

He stressed that EU and Azerbaijan already have significant achievements in increasing trade and energy links, such as Baku-Tbilisi-Kars.

"What we need now is to fill these routes with cargoes, since there are new possibilities in their fast and cheap transportation. We support Azerbaijan as a significant transport hub. And I would also like to mention the importance of people-to-people connectivity, increasing each year between Europe and Azerbaijan," Jankauskas said.

According to Azerbaijan's State Customs Committee, trade turnover with the EU member countries amounted to \$9.4 billion in 2017, 52.35 percent more than in 2016.

Azerbaijan exported goods worth \$7.45 billion to the EU countries in 2017.

Ilham Aliyev: Azerbaijan interested in expanding co-op with South American countries

16 March 2018 11:22 (UTC+04:00)

Baku, Azerbaijan, March 16

Trend:

Azerbaijani President Ilham Aliyev has met the Chairman of the Senate of Paraguay Fernando Armindo Lugo Mendez.

Mendez expressed gratitude for being invited to the 6th Global Baku Forum and noted that he is very pleased to participate in the event.

He stressed that the expanding geography of the event participants, the participation of representatives of various regions of the world contribute to international cooperation and at the same time make the event a good platform for discussing topical issues on the agenda.

President Ilham Aliyev noted the importance of participation of Chairman of the Senate of Paraguay Fernando Armindo Lugo Mendez in the 6th Global Baku Forum.

Touching upon the international significance of the event, Ilham Aliyev said that participation of representatives of various levels in the forum is important from the point of view of holding comprehensive discussions on international issues.

Ilham Aliyev noted that Azerbaijan is interested in expanding cooperation with Paraguay and other South American countries.

Azerbaijan secures status of bridge between West and East - Mexican ambassador (Exclusive)

29 March 2018 23:27 (UTC+04:00)

Baku, Azerbaijan, March 29

By Ali Mustafayev – Trend:

Azerbaijan has been strengthening its status as a bridge between the West and the East for many years, Ambassador of Mexico to Azerbaijan Rodrigo Labardini told Trend on March 29.

"This is also confirmed by the fact that the country, through constructing the Baku-Tbilisi-Kars railroad, has become the shortest transit route from China to Europe. Azerbaijan reduced the cargo transportation time from China to Europe to 12 days, and this can not but positively affect the economic situation of all Eurasian continent," Labardini said.

He noted that the regional and global projects, on which Azerbaijan is currently working, cause admiration not only in the region, but also beyond its borders.

"As for the domestic economy of Azerbaijan, we are glad to see its strengthening and development, and the actions the country's government takes for the continuous development and movement of the country forward," the ambassador said.

Silk Road - very important connection between Asia, Europe: envoy

17 March 2018 12:58 (UTC+04:00)

Baku, Azerbaijan, March 17

By Leman Zeynalova – Trend:

Silk Road is a very important connection between Asia and Europe, said Azerbaijan's ambassador to US Elin Suleymanov during the John Batchelor Radio Show.

He pointed out that recently, OSCE just had a big meeting in Baku on the Silk Road Support Group.

Presidents of such countries as Montenegro and others, who are actually outside the traditional perception of the Silk Road, are also discussing the importance and impact of this project outside the region itself, added Suleymanov.

"That's a very important connection between Asia and Europe. It builds on history, it builds on tradition, but most importantly, it builds on strategic cooperation between Azerbaijan, Turkey, Georgia, now Kazakhstan and other nations," he said.

North-South project implementation to contribute to economic development of all participating countries

29 March 2018 20:42 (UTC+04:00)

Baku, Azerbaijan, March 29

By Ilkin Shafiyev – Trend:

The implementation of the North-South transport project will contribute to the development of the economies of all participating countries, Elshad Mammadov, expert in economic issues, doctor of economic sciences, told Trend March 29.

"The project will give not only an impetus to the development of infrastructure in the participating countries, but will also have a multiplier effect on the economies of these countries," Mammadov said. "The center of the world economy is gradually shifting towards the Asian region, where such countries as China and India are located. In this regard, investments made in transport projects, uniting Asia and Europe, are very promising, because the cargo transportation volumes grow from year to year."

Azerbaijan and Iran have recently signed an agreement on financing the construction of the Astara-Rasht railway section in Iran.

"Azerbaijan is the main investor in the North-South project," Mammadov said. "Of course, it is necessary to make investments to create stable competitive advantages of the project because Iran and Russia are the biggest economic players in the region. Azerbaijan should show an initiative in the activity with these countries."

The Qazvin-Rasht-Astara (Iran)-Astara (Azerbaijan) railroad is part of the North-South transport corridor that will connect Northern Europe with South-East Asia, as well as by uniting the railways of Azerbaijan, Iran and Russia.

The cargo will be transported through India and further through the Persian Gulf, Iran, Azerbaijan, Russia in the direction of the Scandinavian countries and Northern Europe within 14 days.
